Profile

Software Engineer with 3 years of experience developing with javascript and react. Actually I've been working on Argentum since 2015 developing some .Net web (JS) projects. In parallel I'm working on a software project called LityStyles developed in React for the front end and NodeJs for the backend.

Skills

JavaScript / Typescript
React JS
Nodejs
AWS Serverless

Experiences

My experience is based on creating web applications in react, nodejs, **javascript and typescript**.

I have worked on **application integration**, configuration of **AWS API Gateway**, configuration of **notification services** in mobile applications with **firebase**

I have experience with docker and how to **dockerize an application** in developer mode and production mode.

Configuration of lambda functions in web applications using serverless and AWS amplify.

Experience with **DynamoDb integrated** with appsync receiving requests with GraphQL

Theoretical knowledge about the inner workings of JavaScript and **asynchronous procedures** (attached course certificate on udemy).

Projects Portfolio

Work History

Client/Industry Argentum / Finance
Project Front End project
from - to (duration) Start date 3-10-19 and End date 7-02-2020 (1y, 4m)
Job Title / Position Software Developer
Technologies Javascript - .Net SQL Server
Description & Responsibility It was a project in .net with front end HTML and javascript in which the processing of documents is handled (one of the important milestones achieved was to make an autosave in the events of the components)

Client/Industry Argentum / Government
Project Front End project
from - to (duration) Start date 12-12-2020 and End date 9-21-2021 (10m)
Job Title / Position Software Developer
Technologies Javascript - .Net
Description & Responsibility It was a project in .net with front end HTML and javascript in which it works with data processing with a stepper and at the end a payment was applied with Cardnet services (Dominican company). In the redirection of the payment, the successful or failed payment had to be shown on the client side.

Client/Industry Litystyles SRL / Business
Project Litystyles App - Full Stack Project
from - to (duration) Start date 08-9-2020 and End date 01-30-2021 (5 m)
Job Title / Position React Developer
Technologies React Aws (amplify, appsync, graphql, cognito, lambda, dynamodb)
Description & Responsibility It is a project developed in React with AWS serverless (Appsync, cogni, lamda) and is based on the automation of processes for beauty salons and barbershops.

Client/Industry Personal Project / SEO
Project Google Dofollow Search - Full Stack Project
from - to (duration) Start date 06-03-2022 and End date 08-18-2022 (3 m)
Job Title / Position FullStack Developer
Technologies React, Nodejs, Postgres
Description & Responsibility It is a project developed in react and node js based on identifying websites that contain "a" tags with the property "rel = dofollow" in their HTML code.

Client/Industry Litydoctors / Business
Project Litydoctors
from - to (duration) Start date 10-04-2019 and End date 05-07-2020 (7 m)
Job Title / Position React Developer
Technologies React Aws (amplify, appsync, graphql, cognito, lambda, dynamodb)
Description & Responsibility It is a project developed in React with AWS serverless (Appsync, cogni, lamda) and is based on the automation of the medical consultation process.
